Discoverer 10g Plus Interface – Choosing a Discoverer 10g Connection

To use a preset connection click on the name of the connection ...

The screenshot shows the Oracle Discoverer Plus Business Intelligence interface. At the top, there is a navigation bar with the Oracle logo and the text "Discoverer Plus Business Intelligence". A "Help" link is visible in the top right corner. Below the navigation bar, there is a "Connect Directly" link. The main section is titled "Connect to OracleBI Discoverer" and includes a sub-section "Choose Connection". A "Create Connection" button is located in the top right of this section. A table lists available connections, with one connection named "D10P" selected. The table has columns for "Details", "Connection", "Description", "Update", and "Delete". The "D10P" connection is described as "Standard logon details". Below the table, the details for the selected connection are shown: "Connect To" OracleBI Discoverer, "User Name" D10P_ADMIN, "Database" trg10g, "Locale" Locale retrieved from browser, "Connection Key" us_a101, "Connection Type" Private, and "End User Layer" D10P_ADMIN. Below the details, there is a "Connect Directly" section with a "Return to Top" link. This section includes a note that an asterisk indicates a required field. The form contains several input fields: "Connect To" (a dropdown menu set to "OracleBI Discoverer"), "User Name" (a text input field with an asterisk), "Password" (a text input field with an asterisk), "Database" (a text input field with an asterisk), "End User Layer" (a text input field), and "Locale" (a dropdown menu set to "Locale retrieved from browser"). A "Go" button is located at the bottom of the form.
