

Introduction - How to run Discoverer 9i Plus

The first page displayed will display all available userids for the user to connect with

The screenshot shows the Oracle9iAS Discoverer Plus web interface in Microsoft Internet Explorer. The browser title is "Oracle9iAS Discoverer - Microsoft Internet Explorer". The address bar shows the URL: http://seerweb01.websserver.seercomputing.com:7779/discoverer/plus?_sort_col=connection&_sort_dir=lh&_plus=true. The page header includes the Oracle9iAS Discoverer Plus logo and a Help icon. Below the header, there is a section titled "Connect to Discoverer Plus" with a sub-header "Connect to Discoverer Plus". The text below this section reads: "To connect to Oracle9iAS Discoverer, click the corresponding Connection in the table below. If the connection you are looking for isn't in the list, click Create Connection." There is a "Create Connection" button. Below this is a table with columns: Details, Connection, Description, Update, and Delete. The table contains two rows: one for "disc9_admin_conn" and one for "scott_connection". At the bottom of the page, there is a copyright notice: "Copyright ©2000, 2002 Oracle Corporation. All rights reserved.", a "Show XML" link, and the version number "Discoverer Plus - version 9.0.2.39.02".
