

# Exercise Ten

---

10.1 Create a new Business Area which consists of Employee\_Details, Location\_Type and Store\_Locations tables, call the Business Area 'Store Employees'.

10.2 Create a new Folder called Employee Dets within the Store Employees Business Area and place the following items from the above Folders in it

Location Type

Location Description

Store Locations

Location Name

Location Address

Location Telephone

Employee Details

Employee Name

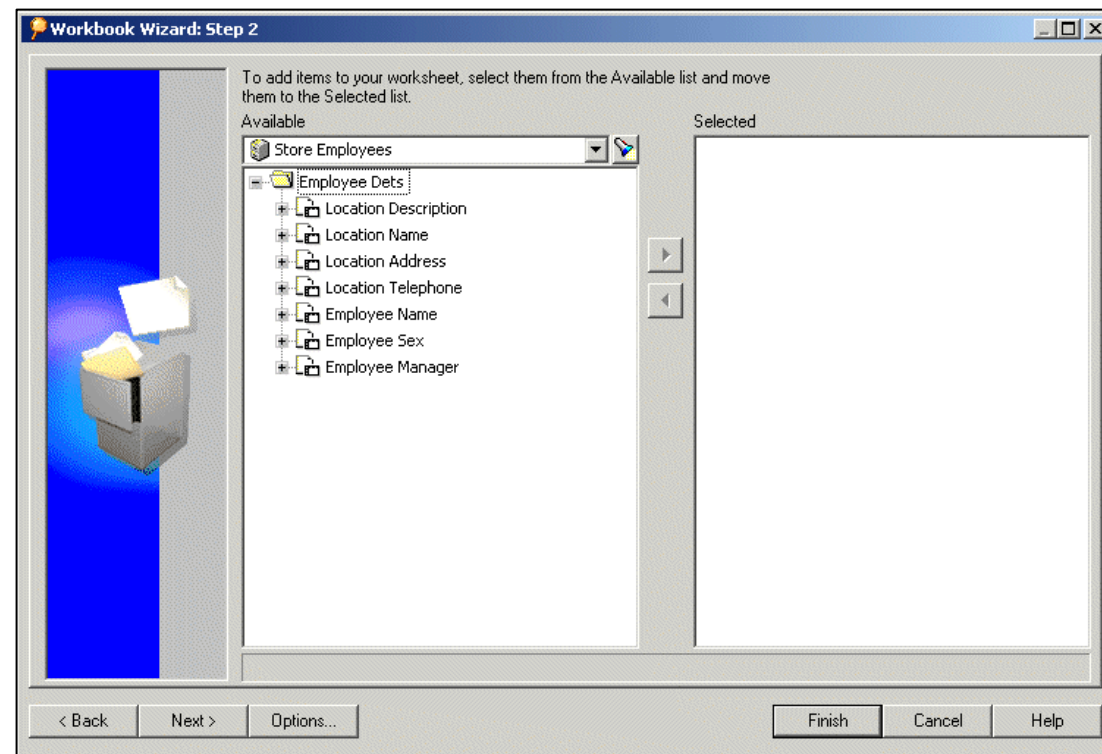

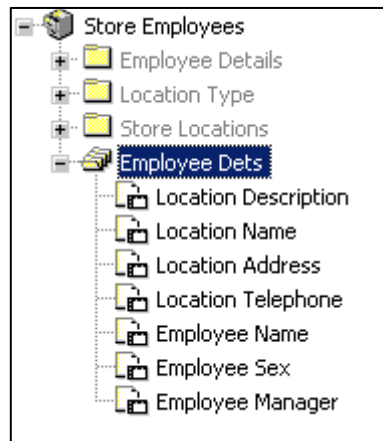

Employee Sex

Employee Manager

# Exercise Ten

10.3 Make the Employee Details, Location Type and Store Locations folders not visible to Users, log onto Desktop as the User to make sure this is what has happened.

# Exercise Ten

---

10.4 Returning to the Products\_View Business Area, create a new Complex Folder in it called Sales, make the Folders Sales\_MV and Products\_MV non-visible to the User.

Drag the following Items into the Sales Folder ...

Sales Number

Date

Product Number (from Products MV)

Product Name (from Products MV)

Number of Units

Price

Value

Returning to Desktop, create a new Worksheet selecting the entire Sales Folder from the Products\_View Business Area, it should appear as follows ....

# Exercise Ten

Product Number	Product Name	Price SUM	Date	Sales Number	Number Of Units	Value SUM
16	NOSTALGIA S	£399.99	01-JAN-1991	131451	3	£1199.97
