

## Exercise Six

---

6.1 Create a new Business Area called Product Sales 1995, create new Folders using the Products\_Group, Products and Products\_Sales tables from d3a\_admin user.

6.2 Create a mandatory condition in the Products\_Sales folder which limits the results to return only sales made in 1995.

6.3 Connect as the Discoverer User and create a new worksheet from the above Business Area ... make sure that the condition is working.

6.4 Make sure that the condition is mandatory and that the user cannot see it to suppress it.

6.5 Export the Business Area as EX6\_5.eex

## Exercise Six

---

6.6 Amend the condition in 6.2 to show sales for 1995 or sales numbers between 82161 and 82210 and only show sales for product number 2.

6.7 Test the Business Area in Discoverer User

6.8 Export the Business Area as EX6\_8.eex

6.9 Create an optional condition based on the Order Details folder which limits the results to only return records where the Order Number is between 3 and 9 and the Price is greater than 5.
