

## Exercise Five

5.1 Returning to Workbook ex4\_3, create a 'count' Total on the Products Group Worksheet. Create a Title calling the Worksheet 'Products Group Total'.

Save as ex5\_1.dis

Products Group Total			
	Group Number	Group Name	Group Description
▶ 1	2	GARDENING	Contains gardening tools, plants and furniture
▶ 2	3	BUILDING	Building materials
▶ 3	4	DECORATING	Contains wallpaper and paint, etc
▶ 4	5	BATHROOM	Bathroom suites and accessories
▶ 5	1	HARDWARE	Hardware items including nuts and bolts
6	Count: 5		

Product List   Products Group   Product Sales   Employee Information   Product Sales Crosstab

# Exercise Five

---

5.2 In the Products List Worksheet of ex5\_1 ...

Add the Group Number Item, note that its heading will need to be formatted.

Pivot this Item to the most left hand column of the Worksheet.

Create a new Total which sums the number of Products in Stock for each Group.

Set the format of the Total to be larger than the normal data.

Save as ex5\_2.dis

## Exercise Five

---

5.4 Returning to the Products List Worksheet, create the following percentages ...

A percentage for each Number in Stock expressed against the Grand Total

A percentage for each Number in Stock expressed against the Sub-Total

Make sure each percentage is given appropriate headings and sufficient decimal places.

Note that the headings of each will need formatting.

Create an exception on the Grand Total percentage Item where the value is greater than 20.
