

Exercise Three

This exercise will give you practise in handling numbers.

3.1 Import the exercise_3 project. Copy ex3_0.java to ex3_1.java.

Output the sum of adding the following values together ... $12.3 + 4356.7 + 11 + 900$

Total is 5280.0

3.2 Copy ex3_1.java as ex3_2.java, amend the code to divide the result by 9

Total divided by 9 is 586.6666666666666

3.3 Copy ex3_2.java as ex3_3.java, output two values to show the rounded down and rounded up values of the above result.

Total divided by 9 and rounded up is 587.0

Total divided by 9 and rounded down is 586.0
