

Exercise Eight

Before doing this exercise issue a Commit statement.

8.1 Get the current SCN number. Make a note of it.

8.2 Delete from the Products_Sales table and commit.

```
SQL> delete from products_sales
```

```
19241 rows deleted.
```

8.3 Create an insert statement to insert the records in the previous SCN number into the current products_sales table.

Check that all the records have been replaced.
