

Exercise Fifteen

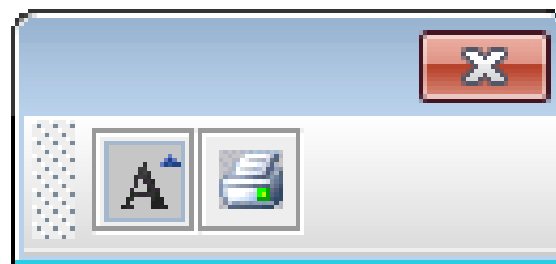

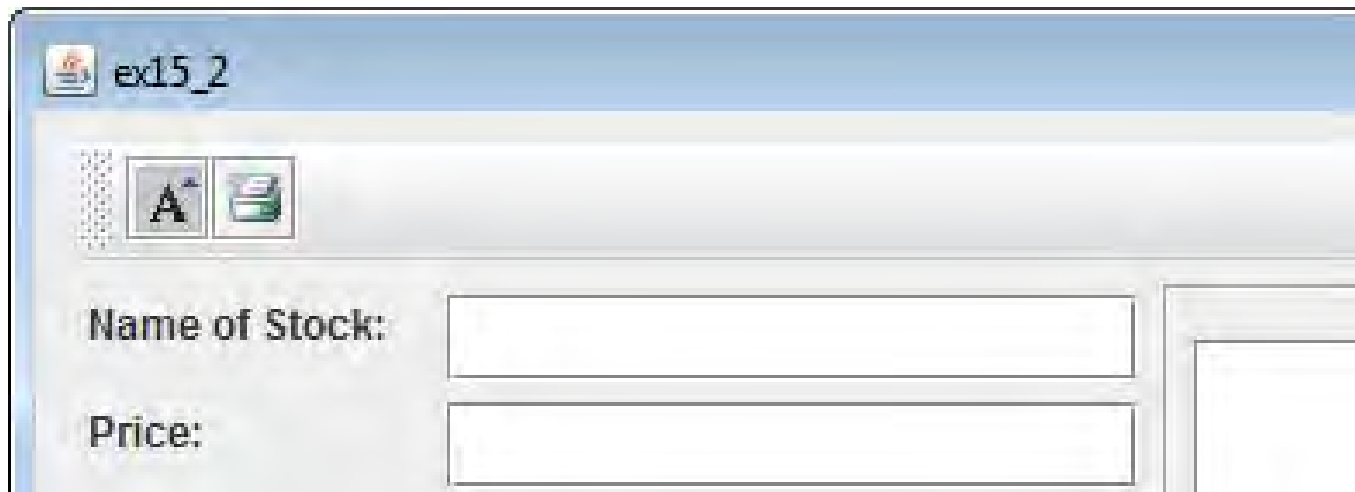

15.1 Create a new Project called exercise_15 with a package called exercise_15.
Copy ex14_3 as ex15_1 ... Remove the two buttons to make the Stock name uppercase and print out the record, create a menu bar and options to provide this facility. Include tooltips and mnemonics

Exercise Fifteen

15.2 Copy ex15_1 to ex15_2. Amend ex15_2 and provide the User with a toolbar which will provide the print and uppercase facility, remove the JMenuBar. Use iconB.gif and iconE.gif for JButton icons.

Exercise Fifteen

15.3 Copy ex15_1 to ex15_3. Convert the existing JMenuBar into a JPopupMenu. Remember to create a MouseListener, place it on the Name of Stock field (right click to test) ...
