

Exercise Six

6.2 Create a new query on Share_Index which similar to ex6.1 produces a 'lag' output for the 2002 period, restricting the records selected to only those for Fridays but this time produce a column which expresses the market fluctuation in a sentence, use the Case function to produce the output. Save as c:\course\ex6_2.php

<i>Date</i>	<i>End of Weeks Trading</i>	<i>Situation</i>
04-JAN-2002	5323.7563	No Previous Weeks result
11-JAN-2002	5198.5690	Index Down 126 points on last week
18-JAN-2002	5126.7926	Index Down 72 points on last week
25-JAN-2002	5193.0456	Index up 66 points on last week
01-FEB-2002	5189.6829	Index Down 4 points on last week
08-FEB-2002	5128.0905	Index Down 62 points on last week
15-FEB-2002	5182.4812	Index up 54 points on last week
22-FEB-2002	5050.8366	Index Down 132 points on last week
01-MAR-2002	5169.0150	Index up 118 points on last week
08-MAR-2002	5285.6511	Index up 116 points on last week
