

Exercise Nine

9.1 A file called ex9_0.php has been created with a large array of names in it, using regex, display only those people whose first character begins with a 'T'.

Save as c:\course\ex9_1.php

Thomas Andrews

Timothy Alexander

Tracey Peters

Terry Cole

Thomas Makinson

9.2 Amend the above to only display those names which also have an 's' somewhere within the value. Save as c:\course\ex9_2.php

Thomas Andrews

Tracey Peters

Thomas Makinson

Exercise Nine

9.3 Change the Regex completely and retrieve only those people whose second name begins with a 'J'. Save as c:\course\ex9_3.php

Sarah Johnston

Elton John

Harry Jacobs

Rachel Jenson

Declan Jovan

Richard John

Joyce Jackson

Brian Jessop

Beth James

Kathleen Jones

Harry Jackson

Matthew Johnson

Exercise Nine

9.4 Create a new PHP file from c:\course\ex9_0.php and display only those records which end with a 'y' or contain a 'x' within them. Save as c:\course\ex9_4.php
