

Exercise Four

4.1 Unload the Club_65 table with the LoadFormat of comma separated into the c:\course directory.

The file created will be called CLUB_65_DATA_TABLE.csv

4.2 Delete all records from the Club_65 table, commit the changes.

4.3 Load the c:\course\CLUB_65_DATA_TABLE.csv, check that the Club_65 table is populated again.
