

Section	Title	Page
<b>One</b>	<b>Learning Oracle SQL</b>	<b>2</b>
	- What is Structured Query Language	3
	- What is an Oracle Database?	4
<b>Two</b>	<b>Oracle Database Objects</b>	<b>5</b>
	- What Oracle Database Objects are used by a User	6
	- What's the purpose of Tables in an Oracle Database	7
	- The purpose of Views in an Oracle Database	8
	- The purpose of Materialized Views in an Oracle Database	9
	- Why use Indexes in an Oracle Database	10
	- The purpose of Sequences in an Oracle Database	11
	- What are Oracle Packages, Functions and Procedures	12
	- The use of Synonyms and Schemas in Oracle	13
<b>Three</b>	<b>The Oracle SQLPlus and SQLcl Interface</b>	<b>14</b>
	- SQLPlus versus SQLcl	15
	- How to logon	16
	- What do I need to login	17
	- The initial details shown in SQL	21
	- ORA-01017: invalid credential or not authorized	22
	- ORA-12154: Cannot connect to database	23
	- How do I exit a session	24
	- Using Dos commands	25
	- SQLPlus Function Keys	26
	- Using the Line Editor	27
	- Using the Buffer Editor	28
	- Environment Settings	29
	- Saving and Reading in SQL	30
	- Spooling Results to a file	31
	- Changing Passwords / Clearing the Screen in SQL	32
<b>Four</b>	<b>SQL Scripts</b>	<b>33</b>
	- What are Oracle SQL Scripts	34
	- An example of an Oracle SQL Script	35
	- Commenting SQL Scripts	37
	- How to run SQL in a Batch Script	39
	- Passing Parameters to SQL Scripts	41
<b>Five</b>	<b>Simple Queries</b>	<b>43</b>
	- The syntax of an Oracle SQL Query	44
	- What's the purpose of Oracle Metadata	45
	- Most useful Oracle Metadata views for Users	46
	- How to use an Oracle Metadata View	47
	- What's the purpose of Oracle Metadata	44
	- A simple SQL select statement	50
	- Counting Records in an Oracle Table	53
	- Displaying Literals in a Select statement	56
	- Displaying Variables in a Select statement	58
	- <i>Exercise One</i>	58
	- What are the different styles of SQL Column Aliases	63
	- Column Manipulation with SQL Functions	66

Section	Title	Page
	- How to concatenate or join Columns in SQL	72
	- Performing Calculations in SQL	73
	- Using Order By to sequence data in SQL	74
	- Ordering More than One Column	76
	- Ordering a column with nulls in some records	77
	- Outputting Dates in SQL	78
	- <i>Exercise Two</i>	80
<b>Six</b>	<b>Using Where Clauses in SQL</b>	<b>85</b>
	- Limiting Data in SQL	86
	- Structure of an SQL Where Clause	87
	- Comparison Operators in SQL Where Clauses	88
	- Dealing with Nulls in Where Clauses	96
	- Case Restrictions in SQL Where Clauses	97
	- Using Functions in Where Clauses	98
	- The use of Rownum in SQL Tables	101
	- The use of Rowid in SQL Tables	103
	- Using Fetch in SQL to limit records returned	105
	- Using Percent with Fetch in SQL to limit records returned	106
	- Using Offset with Fetch in SQL to limit records returned	107
	- Using With Ties and Fetch in SQL to limit records returned	108
	- <i>Exercise Three</i>	109
<b>Seven</b>	<b>Oracle Datatypes</b>	<b>114</b>
	- What are the Oracle Datatypes	115
	- What is a Varchar2 datatype	116
	- ORA-00910 when specifying length for varchar2	118
	- Char	119
	- The difference between Varchar2 and Char	120
	- Using Number datatypes in Oracle SQL	121
	- Date datatypes in an Oracle database	122
	- What are Floats in SQL	123
	- What were Long datatypes in Oracle	124
	- Breakdown of LOBs in Oracle	125
	- How do Bfiles work in Oracle	129
<b>Eight</b>	<b>Aggregating Values</b>	<b>130</b>
	- Totaling columns in SQL	131
	- Using Group By to sub-total values	132
	- Using the Having clause with Group By	135
	- Creating a Grand Total using Rollup	137
	- Using alias reference in a Group By	138
	- Using position reference in a Group By	139
	- Using alias in Having	140
<b>Nine</b>	<b>Tree Walking Tables in SQL</b>	<b>141</b>
	- What is Tree Walking	142
	- Syntax for Tree Walking in SQL	144
	- Using LPAD for Tree Walking	146
	- Using Ordering of Siblings in Tree Walks	148
	- Using Sys_Connect_By_Path in Tree Walking	150
	- <i>Exercise Four</i>	152

Section	Title	Page
Ten	<b>Joining Tables and Views in an SQL Select Statement</b>	<b>155</b>
	- Defining Table Aliases in SQL	156
	- Joining Tables in an SQL statement	158
	- Outer Joins in SQL	163
	- Methods of Joining Tables in SQL	165
	- Using Ansi SQL 1986 to Join Tables	166
	- Using Ansi SQL 1986 with Outer Joins to Join Tables	167
	- Natural Joins with Ansi SQL 2016 (ANSI X3.135)	170
	- Cross Joins with Ansi SQL 2016 (ANSI X3.135)	171
	- Join/Using with Ansi SQL 2016 (ANSI X3.135)	172
	- Join/On with Ansi SQL 2016 (ANSI X3.135)	173
	- Left Outer Join with Ansi SQL 2016 (ANSI X3.135)	175
	- Right Outer Join with Ansi SQL 2016 (ANSI X3.135)	176
	- Full Outer Join with Ansi SQL 2016 (ANSI X3.135)	177
	- Creating Table Sets in SQL	178
	- Using the Merge / Set Syntax in SQL	179
	- Using Union to Merge Tables in SQL	181
	- Using Union All to Merge Tables in SQL	182
	- Using Intersect to Merge Tables in SQL	183
	- Using Intersect All to Merge Tables in SQL	184
	- Using Minus to Merge Tables in SQL	185
	- Using Minus All to Merge Tables in SQL	186
	- Using Except to Merge Tables in SQL	187
	- Using Except All to Merge Tables in SQL	188
	- <i>Exercise Five</i>	189
Eleven	<b>Sub-Queries in Oracle SQL</b>	<b>193</b>
	- Introduction	194
	- Using Equals	195
	- In and Not In	198
	- Exists	200
	- Any / Some	201
	- All	202
	- Correlated Queries	203
	- Correlated Updates and Deletes	205
	- Inline Views	206
	- Sub-Queries in a Select Statement	208
	- Sub-Query Factoring (Using With)	209
	- Sub-Query Factoring Example with Aliases	211
	- Sub-Query Factoring Example with Joins	212
Twelve	<b>Advanced SQL Query Techniques</b>	<b>213</b>
	- Introduction	214
	- Using First_Value / Last_Value	215
	- ORA-30484: missing window specification	218
	- Breakdown of Window Specification	219
	- Window Specification - The Arguments	221
	- Window Specification - Query Partition	222
	- Window Specification - The Order By	223
	- Window Specification - The Windowing	225

Section	Title	Page
	- Window Specification - Rows between	227
	- Difference between Range and Rows	234
	- Using Lead and Lag	237
	- Using the Rank Function	240
	- Using the Rank Function with partition by	242
	- Using the Ntile Function	243
	- Using Width_Bucket Function	245
	- Pivot	248
	- Adding a Total to a Pivot	255
	- Changing the Pivot Headings of X Axis	256
	- Unpivot	258
	- Using Listagg Function	261
	- Using Case Function	263
	- Nesting the Case Function	266
	- Subqueries in the Case Function	267
	- Using Ratio_to_report Function	268
<b>Thirteen</b>	<b>Using Alternative Quoting Mechanism in SQL</b>	<b>270</b>
	- Introduction to AQM	271
	- Using Alternative Quoting Mechanism	272
	- <i>Exercise Six</i>	274
<b>Fourteen</b>	<b>Creating Oracle Database Objects</b>	<b>281</b>
	- Naming Tables and Columns	282
	- Creating Tables in SQL	284
	- What are Mandatory Columns in SQL Tables	286
	- Creating Indexes for Tables	287
	- Creation Syntax for Tables in SQL	289
	- Creating Tables by copying an existing table	290
	- Virtual Columns in Oracle	291
	- Creating Virtual Columns with new Table	292
	- Specifying Virtual Column Datatype and Size	293
	- Altering an existing table to add a Virtual Column	294
	- Selecting Virtual Columns in SQL ...	295
	- Using functions within Virtual Columns	297
	- ORA-54012: virtual column is referenced in a column expression	298
	- ORA-54015: Duplicate column expression was specified	299
	- ORA-54013: UPDATE operation disallowed on virtual columns	300
	- Viewing Virtual Columns in USER_TAB_COLS	301
	- Invisible Columns	302
	- Creating Comments on Tables	305
	- Creating Comments on Columns	306
	- Types of Indexes in Oracle Tables	307
	- Creating Indexes in SQL	310
	- Examples of Index Syntax in SQL	311
	- Disabling Indexes in SQL	313
	- Creating Views in SQL	314
	- Creating Sequences in SQL	316
	- Using Sequences in SQL	317
	- Altering Sequences in SQL	319

Section	Title	Page
	- Using Default Value in SQL Tables	320
	- Using Identity	322
	- Renaming Objects in an Oracle Database	323
	- Dropping Objects from an Oracle Database	326
	- Granting Access to other Schemas	327
	- Accessing other Schemas	330
	- Creating Synonyms in Oracle	331
	- <i>Exercise Seven</i>	332
<b>Fifteen</b>	<b>Altering and Populating Oracle Tables</b>	<b>334</b>
	- Rules When Altering Oracle Tables	335
	- Syntax for Altering Oracle Tables	336
	- Rules When Populating Tables in SQL	337
	- Using Variables To Populate Tables	338
	- Syntax for Populating Oracle Tables	339
	- General Comments	345
	- Updating Data in Oracle Tables	346
	- Deleting Data from Oracle Tables	348
	- Handling Large Objects in SQL Plus	349
	- Handling BFiles in SQL Plus	351
<b>Sixteen</b>	<b>Committing Records</b>	<b>352</b>
	- The Difference Between DDL & DML	353
	- Using Autocommit in SQL Plus	356
<b>Seventeen</b>	<b>Materialized Views</b>	<b>357</b>
	- What are Materialized Views	358
	- Syntax for Creating Materialized Views	360
	- Refreshing Materialized Views	362
	- Building Materialized Views	368
	- Refreshing Materialized Views Manually	370
	- Building Materialized View Logs	371
	- Building Materialized Views	368
	- <i>Exercise Eight</i>	377

## Appendices

- Appendix S1 – SQL Functions**
- Appendix S2 – SQL Line Editor Commands**
- Appendix S3 – SQL Environment Settings**
- Appendix S4 – SQL Number Formats**
- Appendix S5 – SQL Date Formats**

## Delegate Questionnaire
