

9i New Features for Developers

SECTION	TITLE	PAGE
One	Introduction	2
Two	SQL*Plus Features	4
	- New Functions	5
	- Passwords	6
	- Pfile	7
	- Spfile	8
	- Sqlprompt	9
Three	9i Date Changes	10
	- Date Datatypes	11
	- Database Timezone	13
	- Timestamp	19
	- Timestamp & Sysdate	20
	- Extract	24
	- To_Timestamp	25
	- Timestamp with Time Zone	27
	- Time Zone and Extract	30
	- TZ_Offset	31
	- Time Zones and UTC	32
	- To_Timestamp_TZ	34
	- From_TZ	35
	- Timestamp with Local Time Zone	36
	- Timestamps and Front Ends	37
	- Intervals	38
	- Assigning Values to Year Intervals	41
	- Assigning Values to Day Intervals	43
	- Using Intervals	45
	- Declaring in PLSQL	51
	- Intervals and Extract	52
	- <i>Exercise One</i>	53
Four	DML Features	62
	- Coalesce	63
	- Nullif	64
	- Nvl2	65
	- With	66
	- Width_Bucket	68
	- Hierarchys	71
	- Hierarchys and Sys_Connect_By_Path	74
	- Migrating Long Columns	76
	- Multiple Table Inserts	78
	- Unconditional Multiple Inserts	80
	- Conditional First Multiple Insert	81
	- Conditional All Multiple Insert	83
	- Pivoting Multiple Insert	85
	- Merge	87
	- Natural Joins	91
	- Inner Joins	92
	- Full Outer Joins	93
	- <i>Exercise Two</i>	94
Five	Flashback	98
	- Flashback Query	99
	- Dbms_Flashback	105
	- Time Flashbacks	106

9i New Features for Developers

SECTION	TITLE	PAGE
	- SCN Flashbacks	112
	- Flashback Example	113
	- Implicit Flashback	116
	- <i>Exercise Three</i>	119
Six	DDL Features	121
	- Default Value	122
	- Rename	123
	- Disabling Indexes	126
	- External Tables	128
	- Using External Tables	134
	- External Tables Metadata	137
	- External Tables and Forms6i	138
	- External Tables and Reports 6i	139
	- <i>Exercise Four</i>	140
Seven	PLSQL Features	141
	- Embedded Cursors	142
	- For Update	149
	- Case	150
	- Using Rowtype for DML	156
	- <i>Exercise Five</i>	158
Eight	PL/SQL Tables	162
	- Introduction	163
	- Declaring	165
	- Populating	166
	- Using	168
	- Using Count	169
	- Using Delete	170
	- Using Exists	171
	- Using First/Last	172
	- Using Next/Prior	173
	- Passing as Parameters	174
	- Using Varchar2 as an Index	178
	- Using %type as an Index	183
	- <i>Exercise Six</i>	184
Nine	Oracle Packages	186
	- Introduction	187
	- UTL_File	188
	- UTL_File – Fcopy	189
	- UTL_File – Fgetattr	190
	- UTL_File – Fremove	191
	- UTL_File – Frename	192
	- UTL_File – Simple Write	193
	- UTL_File – Simple Read	194
	- UTL_File – Exceptions	195
	- DBMS_Metadata	197
	- <i>Exercise Seven</i>	201
